

# Embark on a journey fueled by scientific discovery

At The College of Liberal Arts and Sciences, we are at the forefront of inquiry as the academic heart of the Arizona State University. Students within the natural sciences pursue fundamental knowledge that enables them to make discoveries and advance solutions to society's most pressing problems. Through groundbreaking research, students and faculty explore the great unknowns of the Earth, our Solar System and the universe beyond.

In the natural sciences, students embark on a journey to understand the physical world through observational and experimental evidence leading to intellectual inquiry and innovations that will aid the next generation in discovering something better.

**80+** undergraduate majors  
**6** schools and departments  
**14** research centers and institutes

---

## Our impact

---

- Cutting-edge research on COVID-19 variants.
  - Partnership with NASA in the development of the panoramic zoom cameras on the Mars 2020 Perseverance rover.
  - Faculty physicists recognized with one of the highest awards given for gravity research for their work on gravitons.
-
